COUNTRY PEOPLE DIDN'T RESPOND

Community Banquet on Streets is
Well Attended by Residents of
The City

HESITANCY BECAUSE IT'S NEW

Noble Township Awarded 5x8 Flag
For Having Largest Delegation
—Talk of Another One

The community banquet was attended by a crowd of 250 persons, most of them from Rushville, but though the crowd was far below expectations, those who came enjoyed themselves immensely and are all willing to come back to another one.

Many country people who said they would come when an automobile tour of all the townships was made did not show up. It is thought that because the banquet was a brand new idea, many people feared that the crowd would be very small.

The greatest fear felt before the banquet was that the people of Rushville would not respond, but showed fine interest in the undertaking, approximately fifty baskets being brought from the homes of the city people.

The large five by eight foot flag was offered to the township outside of Rushville township having the largest delegation to arouse competition among the townships. Many township trustees assured the committees which visited the townships a week ago Monday that they would bring out a crowd, but only one township trustee was present. Noble township was awarded the flag for having the largest delegation present. It is in the hands of W. S. Onal, who was the general chairman for the banquet, and will be delivered to Roseo Titsworth, the Noble township trustee, for use by the township schools.

Although the crowd was small last night, now that the "ice is broken," it was predicted by everyone last night that if another affair of the kind were given within three weeks, there would be two thousand people to eat.

The crowd was entertained by a quartet of colored singers from Shelbyville and a concert by the Odd Fellows band. There was a large crowd of onlookers who ate their suppers before they came down town. The colored quartet was very popular and was repeatedly encored.

A. L. Gary acted as toastmaster. He said that there was not a large crowd out because of a general misunderstanding of the plan and because of the general belief among the country people that the attendance would not be large. Mr. Gary praised the idea of bringing the country and city people together in order to arouse and intensify the community spirit. He said that home pride was just the same as national patriotism. We are all one large family, he declared, and must work together for the common good.

"You should all be proud of being citizens of Rush county and Rushville," Mr. Gary declared. "We have all the things that any county has to be proud of."

Mr. Gary introduced Anthony Schreite, who praised the country and city as an ideal place. He said there were no cities of the size of Rushville more beautiful and there were no finer country homes to be found than are in Rush county.

"Meetings like this help to foster and promote the growth of our community," he continued, "nothing

John G. Gartin, 938 N. Harrison, suffered a broken arm and was probably internally injured shortly after three o'clock this afternoon when the westbound passenger train on the C. I. & W., due here at 2:52, struck his automobile on a crossing four miles west of the city, near Osborn's stop on the I. & C. traction line. The automobile was demolished. Mr. Gartin was attended by a doctor on the train and then brought to his home in this city

POLICE HAVE NO TRACE OF BEVER

Examine William Tottlebin, Held
for Auto Theft Under Oath
he Sticks to Original Story

GOING ON WITH THE SEARCH

So far the police have failed to find any trace of Arthur Bever, wanted on the charge of taking an automobile belonging to his uncle Clarence Carney. William Tottlebin of Connersville, believed to be implicated in the robbery, is still held in jail.

Tottlebin was examined under oath yesterday afternoon by Prosecutor Stevens, his testimony being taken down by a stenographer. Tottlebin maintains he did not know the car was stolen property until he reached Cincinnati with Bever. The police, however, believe he was aware of the plans to take the machine.

With the recovery of the car Mr. Carney is not anxious to push the charge against his nephew, but the police are continuing their search just the same. It is believed that Bever will return within a few days.

STILL HOPEFULL OF WOMAN'S RECOVERY

Physicians Say There is Chance of
Mrs. Rhoda Wells, Railroad
Crossing Accident Victim

SHE IS CONSCIOUS AT TIMES

The condition of Mrs. Rhoda Wells and son Lewis Chester, who were injured Monday afternoon when a C. I. & W. train struck the wagon in which they were riding, resulting in the death of James Wells, the husband and father, remained unchanged today and physicians were still hopeful of their recovery.

Mrs. Wells, however, remains in a critical condition and her recovery is even more doubtful than that of her son. The little boy was cheerful this morning and it was believed he would live. Physicians stated that Mrs. Wells was getting along as well as could be expected under the circumstances. She has been conscious only at times. Both are still at the home of Dr. Lowell Green, their condition being such that it is impossible to move them at this time.

The funeral services of Mr. Wells were conducted this afternoon in the Arlington Christian church and burial took place in the East Hill cemetery there.

STRIKE WOULD BE FELT HERE

Not a Business Nor Home in Rush
County Which Would Not No-
tice its Effects

FOOD DISTRIBUTION WORST

Local Freight Agents Note Very
Little Increase in Inbound Ship-
ments—Much Goods Moving

What will you do in case of a railroad strike? was the question universally asked by the people of Rushville today.

A strike looms large on the horizon today. The railroad brotherhoods have set next Monday as the time for a strike and today refused the request of President Wilson to postpone the date until legislation to prevent a strike could be passed.

The strike would effect practically every person in Rushville and Rush county, as well as every business. The first effects would be noticeable in food distribution. Grocers read in the Indianapolis Star this morning that Indianapolis commission merchants as well as wholesale grocers had determined to do business on a strictly cash basis in the event of a strike.

In that event, the logical conclusion would be that the retailer would have to do a strictly cash business. Such a procedure, it is reasoned, would tend more than anything else to bring the strike to a halt because public opinion would all be lined up against it. Factories would have to close down because of the lack of raw material and the laboring men, with business on a strictly cash basis, would have no money with which to purchase the necessities of life.

The I. & C. traction line has about two weeks supply of coal on hands, which means that the interurban could not be operated longer than two weeks if the strike continued that long. Local retailers are counting on getting their shipments out of Indianapolis by interurban, as many of them already do, but it is not so much a question whether goods can be transported from Indianapolis as whether Indianapolis wholesale and commission houses will have the goods to supply.

Some grocers have already begun to anticipate the strike by ordering in extra shipments. Inquiries at freight depots today revealed that freight business was hardly any above normal, if any. It was said at the Pennsylvania station that outbound business was a little heavier, but that inbound freight was normal. It was stated at the C. I. & W. station that inbound freight was a little abnormal, apparently due to the strike. The Big Four office said their freight business was good, but that it was due to the season.

It is declared that there is an apparent effort in freight circles to get everything possible moving. This has been true of elevator men who do not want any grain on their hands in the event of a strike.

There is little danger of the city being without water and lights because the city plant has six weeks supply of coal on hands. The superintendent, A. T. Mahin, has been preparing against a strike and has had about three car loads of coal coming in every week.

CLAIM IS NOT SUBSTANTIATED

James S. Jones of Missouri Says He
Was First White Child Born in
Rushville Township.

HE IS 91 AND HIS WIFE IS 87

County Divided Into Townships 95
Years Ago—Isaac Jones Only
One Mentioned in Histories.

According to an item appearing in a recent issue of the Denver, Colo., News, Mr. and Mrs. James S. Jones of Buchanan county, Mo., who have been married seventy-one years are in Denver visiting their 70-year-old son, Clabe Jones. Mr. Jones, who is ninety-one years old, claims to be the first white child born in Rushville township.

The family has a rather remarkable history. An investigation here today failed to reveal any relatives of Mr. Jones and also failed to substantiate his claims as to being the first white child born in this township.

The article in the Denver paper was as follows: "Mr. and Mrs. James S. Jones of Buchanan county, Mo., who have been married seventy-one years, are visiting their 70-year-old son, Clabe Jones in Denver. Mr. Jones is 91 years old, and his wife four years younger. They were married July 22, 1845, and have had fourteen children, seven boys and seven girls. Four are living, all over sixty years old. Fifty-eight grandchildren are living, 200 great-grandchildren and eight or ten great-great-grandchildren. Mr. Jones had twelve brothers and sisters, and he was the first white child born in Rushville township, Rush county, Indiana. Three of these brothers are still living. Mrs. Jones is one of eleven children and two of her sisters are living."

No one could be found today who could recall this Jones family. Most of the Jones in Rush county are natives of Kentucky or at least their forefathers came from that state. The family mentioned is certainly remarkable and there are many people here who would like to see the man that claims to be the first white child born in the township.

Rush county was made a county in 1821 and the townships laid off shortly after. This was ninety-five years ago and as Mr. Jones claims to be ninety-one, many doubted his claim as to being the first white child.

In an early history of Rush county, only one Jones was found who was an early settler in Rushville township. This was Isaac Jones and whether he was the father of the man mentioned in the Denver account is not known.

GOSNELL UNCONSCIOUS YET

Race Driver Hurt Nearly Week Ago
Has Very Little Chance

Word from Curt Gosnell today was that he is still unconscious. In the telegram received by Dr. Lowell M. Green it was stated that his condition remained unchanged and that he had his best day yesterday.

Dr. Green is unable to explain what was meant by his best day as he was unconscious. Gosnell was injured one week ago tomorrow when thrown from a sulky at the Cleveland race track, and has been unconscious ever since. It is believed he has little chance of getting well since he has been unconscious so long.

CHURCH IS NATIONALIZED

Property of Catholic Church in
Mexico Affected by Decree

(By United Press.)
Mexico City, August 30.—General Carranza in a decree made public today announced the nationalization of the property of the Catholic churches in Mexico.

The churches will be nominally controlled by the clergy. The government, however, reserves the right to police them and use them for its own purposes.

The government also reserves the right to discontinue their use as a place of worship after one year's service.

WAR VETERANS STAGE PARADE

Fifteen Thousand G. A. R. Members
March in Annual Encampment
Parade Today.

REVIEWED BY GEN. MANFORT

(By United Press.)
Kansas City, Mo., Aug. 30.—Fifteen thousand grizzled fighters of the Civil War marched over the downtown section today in the annual Grand Army of the Republic parade.

With a score of fifes and drums beating time and brass bands playing national airs, the gray haired veterans moved slowly over the line which included many hills.

The streets were thronged with spectators who cheered each state contingent as it passed and the veterans doffed their hats and saluted almost continuously.

W. E. Calhoun, commander of the Department of Illinois, and his state organization headed the procession, followed by the Wisconsin and Pennsylvania Departments. The Ohio and New York veterans were next in line. Then followed the Southern and Western departments. Missouri brought up the rear.

As the parade swung into Main street there were many stragglers but they fought on bravely to pass in review before their commander-in-chief, Elias R. Manfort of Cincinnati, and his staff and state and city officials who occupied the reviewing stand.

PRODUCE AND LIVE STOCK PRICES UP

Feel Effects of Ban by Railroads of
Freight Shipments of Perish-
ables After Saturday.

NOTICES ARE POSTED TODAY

Chicago, August 30.—Produce and live stock prices on the local markets soared today as additional western railroads prepared to ban perishable freight shipments Saturday.

Notices were posted on the floor of the Chicago dairy board that the Michigan Central, Michigan Southern and the Baltimore & Ohio would accept butter and eggs consigned to Philadelphia, New York and Boston, only until Saturday. Produce men predicted a big rise in butter and egg prices.

Unfavorable strike news boosted hogs to their former high level of \$11.30 a hundred pounds today.

TRIES TO STOP STRIKE ORDER

President Exerts Every Influence to
Prevent Calling Out of Railroad Men Monday

NO INTENTION TO RESCIND IT

First Formal Effort to Get Legislation
to Prevent Strike Ends
in a Quarrel

Nothing But Settlement Can Prevent the Strike.

(By United Press.)
Washington, August 30.—"No power under heaven, short of a satisfactory settlement by the railroads can prevent the railroad men from striking Labor day," W. G. Lee, trainmen leader, declared this afternoon after talking with Secretary of Labor Wilson.

(By United Press.)

Washington, August 30.—President Wilson today was exerting every effort to secure from the railroad brotherhoods' leaders a withdrawal of the strike order effective September 4.

Believing that congress is certain to pass legislation such as the brotherhoods are demanding, administration officials have pointed out the trainmen would have nothing to gain by striking and everything to lose. They say if the men carry out their strike order while congress is actually debating measures favorable to labor, there would be a tremendous reaction in the country against the union men.

Thus far, however, the brotherhoods have indicated no intention of rescinding their strike order.

The first formal effort of congress to rush through legislation to prevent the strike of 400,000 railroad employees set for Monday morning, ended temporarily in a quarrel today when bitter charges were made that certain senators are "attempting to make political capital out of a disastrous situation."

The charges were made by Senator Robinson of Arkansas. They followed a statement by Senator Cummins and other Republicans. These senators, it was stated, declared that since the date had been set and since the strike appears to be inevitable, there is no need to rush through legislation that might afterwards prove inadequate to hold for all time as law.

"The strike is not inevitable," Robinson was quoted as saying. "It seems to me that at a time like this when the nation is facing the most disastrous industrial situation in our history, members of all parties should stand together regardless of party or personal ambitions."

The meeting grew so stormy that the committee adjourned the session after passing a resolution agreeing to hear the employes, the railroad managers and the shippers in the senate office building tomorrow.

The railroad strike tying up every piece of steam rolling stock in

ARE PREPARING TO MEET STRIKE

Railroads All Over Country Take
Steps to Cut off Shipments
Before Sept. 2.

DATE FOR FOOD EMBARGO

In Face of This Difficulty, Freight
Handlers in Chicago Threaten
Strike

Chicago, August 30.—Chicago, the greatest railroad center in the world, is fighting in the face of local difficulties to transfer thousands of cars of freight in time for the cars to reach their destinations ahead of Sept. 2, the date declared by many Western railroads tonight for an embargo on perishable freight.

A strike of freight handlers in the local yards of several railroads which threatened to become general within twenty-four hours, hit Chicago just at the time railway officials were swamped with transfer traffic sped up because of the threatened trainmen's strike.

By vote of the International Brotherhood of Freight Handlers' local unions it was determined to call a general strike at noon today of all freight handlers in Chicago, numbering about 6,000, unless concessions demanded from the employers are granted before that hour.

Approximately 1,500 men quit work yesterday and today. The question at issue is not higher wages, but right of the unions to collect dues from the members at their places of employment.

The twenty-seven railway lines entering Chicago, this number being

exclusive of different divisions of the same roads, have been preparing, however, to handle an enormous amount of freight east and west within the next week.

The embargo on perishable freight railway officials say will principally affect live stock. Exceptionally heavy receipts of hogs, cattle and sheep at the Chicago, Kansas City, East St. Louis and other markets are anticipated before the embargo becomes effective.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change
of Life by Lydia E. Pinkham's
Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell everyone how I was cured. If this letter will help others you are welcome to use it."

PLEADS FOR A WEEDING OUT

Elihu Root, President of American Bar Association Would Get Rid of Incompetent Lawyers

ARE GETTING TOO NUMEROUS

Declares Many Are Trying to Get Something For Nothing Out of the Country.

(By United Press.)

Chicago, Aug. 30.—President Elihu Root of the American Association pleaded for a weeding out of the unnecessary and incompetent among the 114,000 lawyers in the United States in his annual address at the opening of the meeting of that organization here today.

"It is true of the American people generally," said Mr. Root, "that too many of us have been trying to get something out of the country and too few of us have been trying to serve it."

Basing his plea for efficiency in the administration of the law upon the statement that we must get down to brass tacks in all our affairs if we're going to keep pace with Europe after the war, Mr. Root flayed our "cumbersome machinery of justice" and called upon the lawyers to forget their selfishness and give the country a little service not only in law administration, but in law making. He said that as a rule only the youngest and least experienced lawyers get into our law-making bodies, local, state and national. Concerning the law and the lawyers, Mr. Root said in part: "There is great economic waste in the administration of the law in state and nation. We spend vast sums building court houses, paying judges, clerks and others and the product in justice is disproportionate to the plant and working force. There is no country in the world where the doing of justice is burdened by such heavy overhead charges. It all causes an enormous waste of time on the part of witnesses, jury panel and parties."

"The ease with which admission to the bar is secured in many jurisdictions

that the courageous fighting youth of the country have no confidence in this administration and they do not intend to enlist under the misleading provisions of the Hay army bill in order to help out the administration's political fortunes and to fill the pockets of Texas sutlers who are fringing the edges of the camps down there.

The Guard may be out of sight of the folks back home, but they are by no means out of mind. The transportation of the men to Texas, though meant as a cloak for another failure of the administration, will prove too thin a subterfuge.

Noble Township Awarded 5x8 Flag
For Having Largest Delegation
—Talk of Another One

The community banquet was attended by a crowd of 250 persons, most of them from Rushville, but though the crowd was far below expectations, those who came enjoyed themselves immensely and are all willing to come back to another one.

Many country people who said they would come when an automobile tour of all the townships was made did not show up. It is thought that because the banquet was a brand new idea, many people feared that the crowd would be very small.

The greatest fear felt before the banquet was that the people of Rushville would not respond, but showed fine interest in the undertaking, approximately fifty baskets being brought from the homes of the city people.

The large five by eight foot flag was offered to the township outside of Rushville township having the largest delegation to arouse competition among the townships. Many township trustees assured the committees which visited the townships a week ago Monday that they would bring out a crowd, but only one township trustee was present. Noble township was awarded the flag for having the largest delegation present. It is in the hands of W. S. Oncal, who was the general chairman for the banquet, and will be delivered to Roscoe Tiftsworth, the Noble township trustee, for use by the township schools.

Although the crowd was small last night, now that the "ice is broken," it was predicted by everyone last night that if another affair of the kind were given within three weeks, there would be two thousand people to eat.

The crowd was entertained by a quartet of colored singers from Shelbyville and a concert by the Odd Fellows band. There was a large crowd of onlookers who ate their suppers before they came down town. The colored quartet was very popular and was repeatedly encored.

A. L. Gary acted as toastmaster. He said that there was not a large crowd out because of a general misunderstanding of the plan and because of the general belief among the country people that the attendance would not be large. Mr. Gary praised the idea of bringing the country and city people together in order to arouse and intensify the community spirit. He said that home pride was just the same as national patriotism. We are all one large family, he declared, and must work together for the common good.

"You should all be proud of being citizens of Rush county and Rushville," Mr. Gary declared. "We have all the things that any county has to be proud of."

Mr. Gary introduced Anthony Schrichte, who praised the country and city as an ideal place. He said there were no cities of the size of Rushville more beautiful and there were no finer country homes to be found than are in Rush county.

"Meetings like this help to foster and promote the growth of our community," he continued, "nothing

John G. Gartin, 938 N. Harrison, suffered a broken arm and was probably internally injured shortly after three o'clock this afternoon when the westbound passenger train on the C. I. & W., due here at 2:52, struck his automobile on a crossing four miles west of the city, near Osborn's stop on the I. & C. traction line. The automobile was demolished. Mr. Gartin was attended by a doctor on the train and then brought to his home in this city.

GOING ON WITH THE SEARCH

So far the police have failed to find any trace of Arthur Bever, wanted on the charge of taking an automobile belonging to his uncle Clarence Carney. William Tottlebin of Connersville, believed to be implicated in the robbery, is still held in jail.

Tottlebin was examined under oath yesterday afternoon by Prosecutor Stevens, his testimony being taken down by a stenographer. Tottlebin maintains he did not know the car was stolen property until he reached Cincinnati with Bever. The police, however, believe he was aware of the plans to take the machine.

With the recovery of the car Mr. Carney is not anxious to push the charge against his nephew, but the police are continuing their search just the same. It is believed that Bever will return within a few days.

SHE IS CONSCIOUS AT TIMES

The condition of Mrs. Rhoda Wells and son Lewis Chester, who were injured Monday afternoon when a C. I. & W. train struck the wagon in which they were riding, resulting in the death of James Wells, the husband and father, remained unchanged today and physicians were still hopeful of their recovery.

Mrs. Wells, however, remains in a critical condition and her recovery is even more doubtful than that of her son. The little boy was cheerful this morning and it was believed he would live. Physicians stated that Mrs. Wells was getting along as well as could be expected under the circumstances. She has been conscious only at times. Both are still at the home of Dr. Lowell Green, their condition being such that it is impossible to move them at this time.

The funeral services of Mr. Wells were conducted this afternoon in the Arlington Christian church and burial took place in the East Hill cemetery there.

STRIKE WOULD
BE FELT HERENot a Business Nor Home in Rush
County Which Would Not No-
tice its Effects

FOOD DISTRIBUTION WORST

Local Freight Agents Note Very
Little Increase in Inbound Ship-
ments—Much Goods Moving

What will you do in case of a railroad strike? was the question universally asked by the people of Rushville today.

A strike looms large on the horizon today. The railroad brotherhoods have set next Monday as the time for a strike and today refused the request of President Wilson to postpone the date until legislation to prevent a strike could be passed.

The strike would effect practically every person in Rushville and Rush county, as well as every business.

The first effects would be noticeable in food distribution. Grocers read in the Indianapolis Star

this morning that Indianapolis commission merchants as well as wholesale grocers had determined to do business on a strictly cash basis in

the event of a strike.

In that event, the logical conclusion would be that the retailer

would have to do a strictly cash business.

Such a procedure, it is reasoned, would tend more than

anything else to bring the strike to a halt because public opinion would all be lined up against it.

Factories would have to close down because

of the lack of raw material and the

laboring men, with business on a

strictly cash basis, would have no

money with which to purchase the

necessities of life.

The I. & C. traction line has

about two weeks supply of coal on

hands, which means that the inter-

urban could not be operated longer

than two weeks if the strike con-

tinued that long. Local retailers

are counting on getting their ship-

ments out of Indianapolis by inter-

urban, as many of them already do,

but it is not so much a question

whether goods can be transported

from Indianapolis as whether India-

napolis wholesale and commission

houses will have the goods to sup-

ply.

Some grocers have already begun

to anticipate the strike by ordering

in extra shipments. Inquiries at

freight depots today revealed that

freight business was hardly any

above normal, if any. It was said

at the Pennsylvania station that

outbound business was a little hea-

vier, but that inbound freight was

normal. It was stated at the C. I.

& W. station that inbound freight

was a little abnormal, apparently

due to the strike. The Big Four

office said their freight business was

good, but that it was due to the

season.

It is declared that there is an ap-

parent effort in freight circles to

get everything possible moving. This

has been true of elevator men who

do not want any grain on their

hands in the event of a strike.

There is little danger of the city

being without water and lights be-

cause the city plant has six weeks

supply of coal on hands. The sup-

erintendent, A. T. Mahin, has been

preparing against a strike and has

had about three car loads of coal

coming in every week.

—Mr. and Mrs. George W. Boling

and Miss Farrel Owen of Mt. Ver-

non, Ill., have returned to their

home.

CLAIM IS NOT
SUBSTANTIATEDJames S. Jones of Missouri Says He
Was First White Child Born in
Rushville Township.

HE IS 91 AND HIS WIFE IS 87

County Divided Into Townships 95

Years Ago—Isaac Jones Only
One Mentioned in Histories.

According to an item appearing in a recent issue of the Denver, Colo., News, Mr. and Mrs. James S. Jones of Buchanan county, Mo., who have been married seventy-one years are in Denver visiting their 70-year-old son, Clabe Jones. Mr. Jones, who is ninety-one years old, claims to be the first white child born in Rushville township.

The family has a rather remarkable history. An investigation here today failed to reveal any relatives of Mr. Jones and also failed to substantiate his claims as to being the first white child born in this township.

The article in the Denver paper was as follows: "Mr. and Mrs. James S. Jones of Buchanan county, Mo., who have been married seventy-one years, are visiting their 70-year-old son, Clabe Jones in Denver. Mr. Jones is 91 years old, and his wife four years younger. They were married July 22, 1845, and have had fourteen children, seven boys and seven girls. Four are living, all over sixty years old. Fifty-eight grandchildren are living, 200 great-grandchildren and eight or ten great-great-grandchildren. Mr. Jones had twelve brothers and sisters, and he was the first white child born in Rushville township, Rush county, Indiana. Three of these brothers are still living. Mrs. Jones is one of eleven children and two of her sisters are living."

No one could be found today who could recall this Jones family. Most of the Jones in Rush county are natives of Kentucky or at least their forefathers came from that state. The family mentioned is certainly remarkable and there are many people here who would like to see the man who claims to be the first white child born in the township.

Rush county was made a county in 1821 and the townships laid off shortly after. This was ninety-five years ago and as Mr. Jones claims to be ninety-one, many doubted his

claim as to being the first white

child. In an early history of Rush

county, only one Jones was found

who was an early settler in Rush-

ville township. This was Isaac

Jones and whether he was the father

of the man mentioned in the Denver

account is not known.

GOSNELL UNCONSCIOUS YET

Race Driver Hurt Nearly Week Ago
Has Very Little Chance

Word from Curt Gosnell today was that he is still unconscious. In the telegram received by Dr. Lowell M. Green it was stated that his condition remained unchanged and that he had his best day yesterday. Dr. Green is unable to explain what was meant by his best day as he was unconscious. Gosnell was injured one week ago tomorrow when thrown from a sulky at the Cleveland race track, and has been unconscious ever since. It is believed he has little chance of getting well since he has been unconscious so long.

and Miss Farrel Owen of Mt. Ver-

non, Ill., have returned to their

CHURCH IS NATIONALIZED

Property of Catholic Church in
Mexico Affected by Decree

(By United Press.) Mexico City, August 30.—General Carranza in a decree made public today announced the nationalization of the property of the Catholic churches in Mexico.

The churches will be nominally controlled by the clergy. The government, however, reserves the right to police them and use them for its own purposes.

The government also reserves the right to discontinue their use as a place of worship after one year's service.

WAR VETERANS
STAGE PARADEFifteen Thousand G. A. R. Members
March in Annual Encampment
Parade Today.

REVIEWED BY GEN. MANFORT

(By United Press.) Kansas City, Mo., Aug. 30.—Fifteen thousand grizzled fighters of the Civil War marched over the downtown section today in the annual Grand Army of the Republic parade.

With a score of fifes and drum corps beating time and brass bands playing national airs, the gray-haired veterans moved slowly over the line which included many hills.

The streets were thronged with spectators who cheered each state contingent as it passed and the veterans doffed their hats and saluted almost continuously.

W. E. Calhoun, commander of the Department of Illinois, and his state organization headed the procession, followed by the Wisconsin and Pennsylvania Departments. The Ohio and New York veterans were next in line. Then followed the Southern and Western departments. Missouri brought up the rear.

As the parade swung into Main street there were many stragglers but they fought on bravely to pass in review before their commander-in-chief, Elias R. Manfort of Cincinnati, and his staff and state and city officials who occupied the reviewing stand.

DATE FOR FOOD EMBARGO

In Face of This Difficulty, Freight
Handlers in Chicago Threaten
Strike

Chicago, August 30.—Chicago, the greatest railroad center in the world, is fighting in the face of local difficulties to transfer thousands of cars of freight in time for the cars to reach their destinations ahead of Sept. 2, the date declared by many Western railroads tonight for an embargo on perishable freight.

A strike of freight handlers in the local yards of several railroads which threatened to become general within twenty-four hours, hit Chicago just at the time railway officials were swamped with transfer traffic sped up because of the threatened trainmen's strike.

By vote of the International Brotherhood of Freight Handlers' local unions it was determined to call a general strike at noon today of all freight handlers in Chicago, numbering about 6,000, unless concessions demanded from the employers are granted before that noon.

Approximately 1,500 men quit work yesterday and today. The question at issue is not higher wages, but right of the unions to collect dues from the members at their places of employment.

The twenty-seven railway lines entering Chicago, this number being

exclusive of different divisions of the same roads, have been preparing, however, to handle an enormous amount of freight east and west within the next week.

The embargo on perishable freight railway officials say will principally affect live stock. Exceptionally heavy receipts of hogs, cattle and sheep at the Chicago, Kansas City, East St. Louis and other markets are anticipated before the embargo becomes effective.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been unable to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known in the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The patients have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Newton, Mo.—"I can certainly speak a good word for Cardui, the woman's tonic," says Mrs. Jay Rhoades, of this town. "I suffered for 12 years with my right side, and the last three years, I would have a bad spell with it about every three months. I would get so bad off, every one would think I could not live."

The first of July, I began taking Cardui, the woman's tonic, and I haven't had a bad spell since soon after I began taking it.

Before taking Cardui, I was so irregular, and at times, I could hardly stand on my feet. Now, I can clean house and do any kind of work without it hurting me in the least.

Cardui will surely do for other women, what it did for me. I am telling all my neighbors about it."

Cardui is a mild and effective tonic for women, that has been found, by actual use, during more than 50 years, to relieve the ailments to which all women are peculiarly liable.

Cardui has helped thousands. Why not you? Try it.

MET THE CRISISCarried Safely Through Change
of Life by Lydia E. Pinkham's
Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."—Mrs. E. H. DEAN, 825 Joseph Avenue, Nashville, Tenn.

Cloak For a Failure.

reasons which impelled the administration which impelled the administration to take the rest of the National Guard from their home concentration camps and to send them off to the border, the underlying cause of this action is plain.

It is to cloak the failure of the Hay army bill.

It is well known that recruiting for the National Guard is at a standstill and that it has been so for many weeks. In spite of the utmost diligence on the part of the recruiting officers, the ranks of the Guard are not up to war footing, nor is there any likelihood that they will be. So long as the Guard remained at home, this fact was daily in evidence. If the Guard is all transported to the Texas border, this fact may be lost sight of. Consequently, the Guard goes to Texas.

Happily, however, the mails are still going back and forth between Texas and the home States of the Guard; happily, the telegraph lines are still in working order; happily, there are several alert and conscientious newspaper correspondents down there with the boys—and by these means the folks back home will continue to know

PLEADS FOR A
WEEDING OUT

Elihu Root, President of American Bar Association Would Get Rid of Incompetent Lawyers

ARE GETTING TOO NUMEROUS

Declares Many Are Trying to Get Something For Nothing Out of the Country.

(By United Press.)

Chicago, Aug. 30.—President Elihu Root of the American Association pleaded for a weeding out of the unnecessary and incompetent among the 114,000 lawyers in the United States in his annual address at the opening of the meeting of that organization here today.

"It is true of the American people generally," said Mr. Root, "that too many of us have been trying to get something out of the country and too few of us have been trying to serve it."

Basing his plea for efficiency in the administration of the law upon the statement that we must get down to brass tacks in all our affairs if we're going to keep pace with Europe after the war, Mr. Root flayed our "cumbersome machinery of justice" and called upon the lawyers to forget their selfishness and give the country a little service not only in law administration, but in law making. He said that as a rule only the youngest and least experienced lawyers get into our lawmaking bodies, local, state and national. Concerning the law and the lawyers, Mr. Root said in part: "There is great economic waste in the administration of the law in state and nation. We spend vast sums building court houses, paying judges, clerks and others and the product in justice is disproportionate to the plant and working force. There is no country in the world where the doing of justice is burdened by such heavy overhead charges. It all causes an enormous waste of time on the part of witnesses, jury panel and parties.

"The ease with which admission to the bar is secured in many jurisdictions

that the courageous fighting youth of the country have no confidence in this administration and they do not intend to enlist under the mis-leading provisions of the Hay army bill in order to help out the administration's political fortunes and to fill the pockets of Texas sutlers who are bringing the edges of the camps down there.

The Guard may be out of sight of the folks back home, but they are by no means out of mind. The transportation of the men to Texas, though meant as a cloak for another failure of the administration, will prove too thin a subterfuge.

"Why do these defects exist in
our administration of justice? The
American people are not quarrel-
some or litigious. They are good
natured, practical, simple and direct
in their methods, respectors of law
and honest in their dealings. Our
Bar as a whole is courageous, loyal
and able. I think the underlying
cause is that unconsciously we all
treat the business of administering
justice as something to be done for
private benefit instead of for the
public service."

Mr. Root admitted that our basic
law should be re drafted but he ad-
ded, "none but a prophet or seer
could do it and none such was
available."

Committees on judicial reform
will report tomorrow morning and
Mr. Root's address may form part
of the basis of discussion on these
reports.
